Panic exit counterlocks

COUNTERLOCK FOR REVERSIBLE LEFT- AND RIGHT HANDED FIRE RESISTANT PANIC EXIT DOORS.

FLUSH BOLT and **PANIC EXIT function** for secondary leaf. **Operation:** the panic exit device operates the rods and releases the latchbolt of the lock in the main leaf, the lever on the front plate operates the rods.

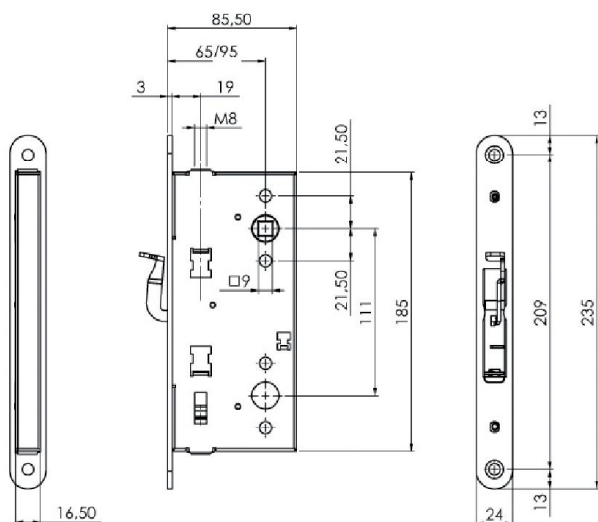

Front plate rounded, mm 24x3, zinc-plated.

The threaded rods are connected to the lock by screwing them inside the self fixing connection nut. Rods projection mm 17. Backset 65 mm.

Usable with locks 214***

Single packaging
